Issue: 8

## A message from the Head teacher

### COMMUNICATION

We have 6 whole school priorities that we are all working on together. One of the priorities involves improving the way we communicate with parents and carers.

So far we have:

- Re-designed the website which includes a calendar outlining all the key dates throughout the year.
- Sent home a document showing who you need to talk to if you have a comment, query, concern or need information.
- Introduced Parent Champions and Parent Forums to increase the number of opportunities to give feedback. We are currently looking at our Homework Policy as a result of these.

But we will be doing more!

This year, before Parents' Evening, you will receive a new Report Card for your child. This will give you key information about behaviour and progress and allow you to have a much more productive Parents' Evening, as you will be equipped with more information.

We will also be holding an extra Parents' Evening at the end of the year, after the final school reports go home, so you can ask any questions you may have.

Please remember, every class teacher is outside at the end of the day—so please do not hesitate to speak with us.

Remember to use our website, download our APP and follow us on Facebook.

## Key Dates

Tuesday 7 November

**Governors' Day in school**
