

Bhavesh Patel - Governor Bio

Hello, I'm Bhavesh!

I'm an Economics graduate and have been working in the Investment Banking industry since 2012. My day to day role sees me lead a finance team and project manage a division on a global basis. Having been born and raised in North London I wanted to give my experience back to the local area in any way I can. Being a governor at De Bohun will hopefully allow me to share my knowledge and experience to help make the atmosphere of the school an enjoyable experience for all the children and help shape their futures to the adapting environment they now grow up in.
