This arrangement enables the teacher to focus exclusively on a small number of learners, usually in a separate classroom or working area.	Overall, evidence shows that small group tuition is effective and, as a rule of thumb, the smaller the group the better. Tuition in groups of two has a slightly higher impact than in groups of three,	On entry data, matched pupils in small groups, regular monitoring, finite time for tuition time e.g. x3 weekly for 6 weeks, exit data	Overall, costs are estimated as moderate. Already included within current staffing expenditure
<b>Other strategies (to be used when required)</b>
