

Lucy Peatfield – Governor Bio

I live very close to De Bohun school and my children have attended the school from when they first started nursery in 2011. I became a governor in 2012 and am committed to ensuring the De Bohun provides a high quality education for all it's children. I am a Speech and Language Therapist and a Senior Lecturer in Speech and Language Therapy. From my working life I bring 25 years experience of working in schools in London and an understanding of the key role that language and communication play in teaching and learning. I was Chair of Governors between March 2014 and March 2018 and then took over the role again in December 2018.
