

Year 3  
Assessment Grid

# Maths

## Number and Place Value

1. Count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number
2. Recognise the place value of each digit in a three-digit number (hundreds, tens, ones)
3. Compare and order numbers up to 1000
4. Identify, represent and estimate numbers using different representations
5. Read and write numbers up to 1000 in numerals and in words
6. Solve number problems and practical problems involving these ideas

## Addition and Subtraction

7. Add and subtract numbers mentally, including a three-digit number and ones
8. Add and subtract numbers mentally, including a three-digit number and tens
9. Add and subtract numbers mentally, including a three-digit number and hundreds

**Year 3  
Assessment Grid**

**Maths**

10. Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction

11. Estimate the answer to a calculation and use inverse operations to check answers

12. Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction

**Multiplication and Division**

13. Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables

14. Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods

15. Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects

**Fractions**

16. Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10

17. Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators
